Enjoy Life.

What a truly beautiful world we live in. Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and liver complaints are the direct causes of 75 per cent, of such maladies as biliousness, indigestion, sick headache, costiveness, nervous prostration, dizziness of the head, palpitation of the heart and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10cts. Try it. nov29y

An Indolent Organ.

When the liver is indolent, as it must necessarily be when it fails to secrete bile in sufficient quantities to meet the requirements of digestion and evacuation, it should be set at work with Hostetter's Bitters. This powerful stimulant quickly imparted by this incomparable alternative, speedily evinces itself in a departure of the uncomfortable sensations in the right side; the nausea; fur upon the tongue; indigestion and sick headache consequent upon insufficiency of the liver and the diversion of the bile from its proper channel. Irregularity of the bowels is always and painlessly reformed by the corrective indicated, which is infinitely to be preferred, both because it is safe and more efficacious to blue pill, calomel and drenching purgatives of every class. It cures and prevents fever andague and rheumatism.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietine Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pluniger is agent for these celebrated "Abietine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

MEDICAL.

An Interview With Frank R. Timms, Representative of Dr. Prentice.

Our reporter, hearing of the arrival of Frank R. Timms, called at the Depot Hotel and found the gentleman.

Reporter—I would like to ask you if there is any truth in the report that Dr. Prentice is coming to Reno.

Mr. Timms—Yes, in compliance with many requests of patients, the doctor has deferred his trip to Europe and will be here for a few days, from July 9 to July 14th.

Reporter—There are many marvelous stories about his straightening cross-eyes in one minute.

Mr. T.—Yes; over 700 happy souls attest his remarkable skill; many cases, particularly that of Miss Kitte Slocum, of 817 Sansom street, San Francisco, were pronounced hopeless by leading physicians of the medical colleges of California. Miss Slocum, after being operated on for six months by a leading oculist, was given up. Her eye, besides being crossed, was paralyzed. Dr. Prentice has transformed her into a handsome young woman.

Reporter—Does the doctor treat all diseases?

Mr. T.—He prefers that only those cases will come to him for treatment who have tried all the other means within their reach. It is such cases that have made his reputation. He does not desire to interfere with the general practitioner, and would prefer that ordinary cases should go to him. There are enough so-called incurable cases to keep him busy, such as catarrh, deafness, hemorrhoids, etc., which he usually cures in one treatment, thus enabling patients living at a distance to return home the same day.

Reporter—Do you think that Dr. Prentice will remain here later than the 14th of July?

Mr. T.—I am positive that he will, as he is on his way to Europe, where he goes nearly every year to visit the hospitals of the continent, and being pressed for time he can only remain in Virginia City from the 1st to the 6th of July; then the 7th and 8th he can be seen in Carson City; the balance of the month from July 9th to the 14th he will be in your pretty town. But as due notice will be given in the GAZETTE, the public can avail themselves of the opportunity and consult Dr. Prentice.

Reporter—Does he charge anything for consultation?

Mr. T.—No; consultations are free. At this moment Mr. Timms was called away, and our reporter bade him good-bye.

General Atkins thinks that Nevada Indians should be educated near their home, in a climate to which they are accustomed. The Commissioner is right; his sentiments will be concurred in by all the people of this State. Based on these sentiments the agitation commenced about two years ago. Upon arguments of like nature the matter was presented to the proper officials at Washington. While the Commissioner in this instance has discriminated against Nevada Indians, we believe it was done with good motives. All Indians should be educated in their native climate, or in a climate as nearly like it as possible. Except in this, that their presence at Hampton might, as in similar instances, elicit for them the friendly interest of philanthropists and governmental officials, the mountain climate of Colorado is more nearly indigenous to our Indians than that of Virginia. If not in the way suggested, then in some other way Eastern people shall be taught that the education of our Indian tribes is an imperative necessity. On this question there is but one sentiment, and that will never rest until the educational opportunities accorded to the children of the most favored Indian nations shall have been accorded to the two thousand Indian children of school age in Nevada.

Reno people who attended the picnic at Bowers' Mansion last Saturday returned home very much disgusted with the management. They say that the worst rot gut that ever was poured down the human throat was sold right inside the walls of Bowers' Mansion. There were several drunken fights, and one or two of the excursionists from this place came home looking as if scared in battle. This was a picnic for innocent school children and, if as pictured by those present the scenes there presented were disgraceful in the extreme. While we are convinced that the manager was not responsible for the sale of whiskey promiscuously among the old topers and young school boys at this picnic, someone is blameable, and in the interest of the good name of Bowers' Mansion as picnic grounds the public have a right to know who is to blame, and whether or not the immoral exhibition of last Saturday is likely to be repeated at future picnics held there.

The Worst Feared.

LONDON, June 14.

The Chronicle's Berlin correspondent emphasizes the recent adverse report regarding the Crown Prince of Germany. He asserts that Prince Bismarck considers the Crown Prince's life doomed, and that the latter's fam-

ily are prepared for the worst. The correspondent says he has heard that the real statement of Professor Virchow was concealed; that the Professor went to the Palace and, with tears in his eyes, declared that his examination had led him to believe that the malady was incurable, and that the Prince's life was in danger. The specialist has written to The Berlin Tagblatt, saying he believes the case of the Crown Prince is a serious one, and that the fitting time for an operation is being allowed to pass, owing to fears for the result. It is necessary, he says, to remove the larynx, which is the only operation that can save the Prince's life, although it will deprive him of his voice. The specialist declares that if the affection were only simple polypus, matters would never have reached their present serious aspect.
